

Discussion Questions

FAITHFULLY DIFFERENT

by Natasha Crain

Chapter 9: Reinvigorating the Spirit of Discernment

1. Which of the false Jesuses in this chapter have you seen most often in culture? Why do you think that particular false Jesus is so commonly promoted?
2. What examples of false Jesuses have you seen that were *not* discussed in this chapter?
3. How would you explain to someone why helping fellow believers with biblical discernment is loving and unifying rather than argumentative and divisive?
4. What are some areas in which you think Christians need better discernment today? Where do *you* most need to grow in discernment?
5. Did you have a favorite quote? (page #)

Chapter 10: Revitalizing the Call to Biblical Justice

6. How would you summarize the differences between the secular social justice and biblical justice views of point A—why things are the way they are? How about the difference between the two views of point B—how things should ultimately be?
7. What are some examples of social structures that secular social justice and biblical justice advocates would agree are oppressive (historically or today)? What are some examples on which they would disagree?

Note: Except for the question about a favorite quotation, these questions are taken from end of each chapter in the book *Faithfully Different*.

8. Given the discussion in this chapter, how would you say secular social justice approaches that are rooted in critical theory fail to do *true* justice (in a biblical sense)?
9. What are some ways in which you could do more for biblical justice?
10. Did you have a favorite quote? (page #)
